

Siaran Pers

Hadir di IEMS 2021, PT Volta Indonesia Semesta, Perusahaan Patungan NFCX – MCAS Group dan SiCepat Pamerkan Kendaraan Listrik Berkonsep Sistem Ganti Baterai

Rabu (24/11/2021) – Potret pengunjung di booth Volta saat melihat unit kendaraan Volta tipe 401 dalam pameran IEMS 2021.

Jakarta, 26 Nov 2021 – PT Volta Indonesia Semesta, perusahaan patungan PT NFC Indonesia Tbk (IDX: NFCX) – MCAS Group dan SiCepat, turut ramaikan ajang Indonesia Electric Motor Show (IEMS) 2021 yang dilangsungkan pada 24-26 November 2021 di Gedung Manajemen ORPPT-BRIN, Kawasan Puspitek Serpong, Tangerang Selatan. Di ajang pameran yang mengumpulkan para produsen kendaraan listrik tersebut, Volta unjuk gigi pameran motor listrik berteknologi Sistem Ganti Baterai (SGB) dengan membawa unit motor roda dua (2) yakni tipe 401 dan kendaraan roda tiga (3) tipe 501.

Pameran yang diselenggarakan oleh Balai Besar Teknologi Konversi Energi (B2TKE) - Badan Riset dan Inovasi Nasional (BRIN) ini merupakan upaya dalam mendukung industri dalam negeri dari sisi riset dan inovasi teknologi kendaraan listrik ini diharapkan dapat meningkatkan populasi kendaraan listrik.

Kepala Staf Kepresidenan RI, Moeldoko mengungkapkan bahwa saat ini Indonesia masih mengandalkan impor BBM sebesar 60% yang mana masih menjadi permasalahan yang

dihadapi di sektor energi. “Kalau kita tidak segera menuju untuk mengembangkan mobil listrik, maka semakin tidak *balance*. Kebutuhan energi meningkat di satu sisi supply energi kita juga semakin tipis,” tegas **Moeldoko**.

Rabu (24/11/2021) – Moeldoko, Kepala Staff Kepresidenan RI saat mengunjungi booth Volta di ajang IEMS 2021.

Kehadiran Volta sekaligus sebagai industri yang turut berpartisipasi mewujudkan impian pemerintah kepada masyarakat dalam penggunaan kendaraan listrik sebagaimana diungkapkan oleh **CEO PT Volta Indonesia Semesta, Willy Awan**, “Volta hadir sebagai solusi atas permasalahan dunia industri yang sedang dihadapi oleh dunia khususnya Indonesia saat ini dalam mengurangi jumlah polusi yang dihasilkan dari kendaraan. Kami berharap dengan menghasilkan produk kendaraan listrik ramah lingkungan, Volta dapat bersaing dan menjadi pilihan ideal masyarakat.”

Volta hadir dengan menawarkan unit kendaraan listrik dengan mode ganti baterai guna memudahkan pengguna saat beraktivitas. Baterai SGB produksi Volta saat ini juga tengah menjalani suatu program sinergi untuk penyediaan lokasi baterai di 150 titik sehingga masyarakat dapat mengganti baterai dengan cepat, nyaman, dan aman.

Partisipasi Volta dalam IEMS 2021 ini diharapkan dapat menjadi langkah awal perusahaan agar dapat semakin dikenal oleh masyarakat dan mampu membuka peluang lebih luas terkait pengembangan produksi kendaraan listrik di masa depan. Selain itu, Volta juga menjalin kerjasama dengan berbagai Universitas ternama seperti Telkom University guna mengembangkan skill-inovasi, riset motor listrik bersama guna meningkatkan pemahaman

teknologi motor listrik lebih dalam dan Sekolah Vokasi (SV) Universitas Gadjah Mada yang ditujukan untuk memanfaatkan sumber daya yang dimiliki kedua pihak dalam pengembangan ilmu pengetahuan dan teknologi.

Motor listrik Volta dapat dibeli melalui dealer resmi Volta yang juga menyediakan layanan pendukung 4S lainnya (Sales, Service, Spare Parts, dan SGB) atau juga dapat dibeli secara online melalui platform e-commerce, Blibli. Pembelian motor listrik Volta juga bisa dilakukan secara bertahap dengan cicilan 0% pada Blibli.com/Volta

Press Release

Participates in IEMS 2021, PT Volta Indonesia Semesta, a Joint Venture Company of NFCX – MCAS Group and SiCepat Showcase the Battery Replacement System Concept

Wednesday (11/24/2021) – Portrait of visitors at the Volta booth excited on seeing the Volta type 401 vehicle unit in the IEMS 2021 exhibition.

Jakarta, 26 Nov 2021 – PT Volta Indonesia Semesta, a joint venture company of PT NFC Indonesia Tbk (IDX: NFCX) – MCAS Group and SiCepat, also participated in the Indonesia Electric Motor Show (IEMS) 2021 which was held on November 24-26, 2021 at the ORPPT-BRIN Management Building, Puspitek Serpong Area, South Tangerang. At the exhibition that gathered the electric vehicle manufacturers, Volta showcased its electric motor with Battery Replacement System (SGB) technology by bringing two-wheeled motor units (2) namely type 401 and three-wheeled vehicles (3) type 501.

The exhibition organized by the Center for Energy Conversion Technology (B2TKE) - National Research and Innovation Agency (BRIN) is an effort to support the domestic industry in terms of research and innovation in electric vehicle technology expected to increase the population of electric vehicles.

The Chief of Staff of the Indonesian Presidency, Moeldoko revealed that currently Indonesia still relies on 60% of fuel imports which is still a problem faced in the energy sector. "If we

don't go straight to develop electric cars, then it will be more *unbalanced*. Energy needs are increasing, on the other hand, our energy supply is also running low," **Moeldoko** said.

Wednesday (11/24/2021) – Moeldoko, Chief of Staff of the Indonesian Presidency while visiting the Volta booth at the IEMS 2021 event.

The presence of Volta as an industry that participates in realizing the government's dream to the public in the use of electric vehicles was expressed by the CEO of PT Volta Indonesia Semesta, Wilty Awan, "Volta comes as a solution to the problems of the industries that are being faced by the world, especially Indonesia today, in reducing the amount of pollution generated from vehicles. We hope by producing environmentally-friendly electric vehicle products, Volta can compete and become the ideal choice of the community."

Volta offers its electric vehicle unit with battery replacement mode to make it easier for users while on the move. Volta's SGB battery is currently undergoing a synergy program to provide battery locations at 150 points to allow people to replace batteries quickly, comfortably, and safely.

Volta's participation in IEMS 2021 is expected to be the company's first step to be increasingly known by the public and able to open wider opportunities related to the development of electric vehicle production in the future. In addition, Volta also cooperates with well-known universities such as Telkom University which is aimed at developing skill-innovation, joint electric motor research to advance a deeper understanding of electric

motor technology, and Gadjah Mada University which is aimed at utilizing the resources owned by both parties in the development of science and technology.

Volta electric motors can be purchased through authorized Volta dealers who also provide other 4S support services (Sales, Service, Spare Parts, and SGB) or can also be purchased online through the e-commerce platform, Blibli. The purchase of Volta electric motors can also be done gradually with 0% installments on Blibli.com/Volta
