

Press Release

Aligned in the Spirit of Green Economy B2O, Volta, a subsidiary of PT NFC Indonesia Tbk (NFCX), MCAS Group, Participated in the 'Ready to eMove' Event

Jakarta, 4 October 2022 - Volta, a subsidiary of PT NFC Indonesia Tbk (NFCX), which is also part of the PT M Cash Integrasi Tbk (IDX: MCAS) group, participated in the Ready to eMove event. Ready to eMove is an event to bridge the electric motorcycle industry players with the government, to establish synergistic actions in order to achieve President Joko Widodo's target of realizing the use of 2 million electric vehicles (EV) by 2025, the target of reducing emissions by 29% in 2030, and net zero emissions in 2060.

Volta participated in the Ready to eMove event, presenting Volta 401, Volta editions of 'Virgo and The Sparklings' and Battery Replacement System (SGB) Cabinet (4/10)

Through the Ready to eMove event, Volta as one of the electric motorcycle industry players in Indonesia also supports the government's target of EV penetration by always actively presenting numerous models of electric motorcycles as an environmentally friendly transportation solution for various industries and daily life. The mission of the event, which echoes the acceleration of the use of electric motorcycles, is also in line with Volta which continues to present innovations, both ownership programs and technological infrastructure to provide convenience for the public in accessing electric vehicles.

Held at The Dharmawangsa Jakarta (4/10), Volta displayed several of its innovative electric motorcycle products including Volta 401, Volta 'Virgo and The Sparklings' edition, Volta Patriot X, as well as supporting infrastructure for electric motorcycles, namely the Battery Swap System (SGB). Opened by Special Staff of the President Diaz Hendropriyono, this event was also attended by the Minister of Transportation Budi Karya Sumadi, Minister of Industry Agus Gumiwang Kartasasmita, Chairman of the People's Consultative Assembly of the Republic of Indonesia and Chairman of the Indonesian Motor Association (IMI) Bambang Soesatyo, President Director of Pertamina Nicke Widyawati, and other invitations.

Ready to eMove was successfully held at The Dharmawangsa, Jakarta (04/10)

eMove also collaborates with B20 on the issue of climate change which is one of the priority issues of B20. B20 is a dialogue forum for representatives of business groups from G20 member countries that reflects on the role of the private sector as a driver of sustainable, strong and balanced economic growth. B20 has consistently adjusted its priorities at the G20 summit. These priorities include policy recommendations on financial system reform, investment trade, infrastructure, employment, climate and new renewable energy.

In the opening of Ready to eMove, **the President's Special Staff, Diaz Hendropriyono** said "The current mobility pattern is not sustainable because the automotive sector is one of the largest contributors for emissions. In this regard, President Joko Widodo initiated an initiative to transform to electric

vehicles that produce fewer emissions. He targets 2 million electric vehicles to pave the roads in Indonesia by 2025.”

Minister of Transportation Budi Karya Sumadi, also expressed his support for the implementation of Ready to eMove, “We know the targets we want, which are 29% reduction in emissions by 2030 and net zero emissions in 2060, are not easy. However, looking at the efforts formed by all communities, starting from the existence of Presidential Regulations, Ministerial Regulations, Police, TNI, and Private Sector, this shows that we are together to realize an extraordinary mission.”

Chairman of the People's Consultative Assembly of the Republic of Indonesia and Chairman of the Indonesian Motor Association (IMI) Bambang Soesatyo added, “This year, the regulations regarding on electric motors must be completed, so that domestic production can produce cheap and affordable electric motors, including all forms of financing.”

Iwan Suryaputra, Chief Executive Officer of Volta said, "Volta's participation in the Ready to eMove event is a form and our consistent step to support various government policies and targets on accelerating the transition to electric vehicles. Furthermore, Volta also seeks to strengthen and accelerate the infrastructure of electric vehicle technology to be able to provide a real social impact to the people of Indonesia."

Martin Suharlle, President Director of PT M Cash Integrasi Tbk added, "In line with the spirit of renewable energy implementation that continues to be emphasized at the G20 and B20, MCAS Group through Volta is committed to providing full support to develop a qualified and complete electric vehicle ecosystem in Indonesia. We believe Volta, which is developed with IoT technology and the support of the Group's massive digital infrastructure, will be one of the pioneers in the great movement to renewable energy."

About PT Volta Indonesia Semesta

PT Volta Indonesia Semesta creates and develops technologies to advance the country, especially in the field of environmentally friendly transportation technology. Volta also optimizes the utilization of company resources to produce high-quality products and services. Always prioritizing technological innovation, Volta presents electric vehicles with leading-edge features that are ready to provide the best driving experience that is environmentally friendly. Siaran Pers

Selaras dalam Semangat *Green Economy* B20, Volta, Anak Usaha PT NFC Indonesia Tbk (NFCX), MCAS Group, Berpartisipasi dalam Acara ‘Ready to eMove’

Jakarta, 4 Oktober 2022 - Volta, anak usaha PT NFC Indonesia Tbk (NFCX), yang juga merupakan bagian dari PT M Cash Integrasi Tbk (IDX: MCAS) grup, hadir dalam acara Ready to eMove. Ready to eMove merupakan acara yang menjembatani para pelaku industri motor listrik dengan pemerintah, agar terjalin aksi sinergis untuk mencapai target Presiden Joko Widodo dalam mewujudkan penggunaan 2 juta kendaraan listrik pada 2025, target penurunan emisi 29% di 2030, dan net emisi nol di 2060.

Volta hadir dalam acara Ready to eMove, menampilkan produk Volta 401, Volta edisi 'Virgo and The Sparklings', dan kabinet Sistem Ganti Baterai (4/10)

Melalui acara Ready to eMove, Volta sebagai salah satu pelaku industri motor listrik di Tanah Air turut mendukung tercapainya target pemerintah dengan selalu aktif menghadirkan beragam varian motor listrik sebagai solusi transportasi yang ramah lingkungan untuk berbagai industri maupun kehidupan sehari-hari. Misi acara yang menggaungkan percepatan penggunaan motor listrik juga sejalan dengan Volta yang terus menyuguhkan berbagai inovasi, baik program kepemilikan maupun infrastruktur teknologi demi memberikan kemudahan bagi masyarakat dalam mengakses kendaraan listrik.

Dalam acara yang diselenggarakan di The Dharmawangsa Jakarta (4/10), Volta menampilkan beberapa produk motor listrik inovatifnya di antaranya Volta 401, Volta edisi ‘Virgo and The Sparklings’, Volta Patriot X, serta infrastruktur pendukung motor listrik yaitu Sistem Ganti Baterai (SGB). Dibuka oleh Staf Khusus Presiden Diaz Hendropriyono, acara ini juga turut dihadiri oleh Menteri Perhubungan Budi Karya Sumadi, Menteri Perindustrian Agus Gumiwang Kartasasmita, Ketua MPR RI sekaligus Ketua Umum Ikatan Motor Indonesia (IMI) Bambang Soesatyo, Direktur Utama Pertamina Nicke Widyawati, beserta undangan lainnya.

Ready to eMove sukses diselenggarakan di The Dharmawangsa, Jakarta (04/10)

eMove juga bekerja sama dengan B20 dalam isu perubahan iklim yang merupakan salah satu isu prioritas B20. B20 merupakan forum dialog perwakilan kelompok bisnis dari negara-negara anggota G20 yang merefleksikan peran sektor swasta sebagai penggerak pertumbuhan ekonomi yang berkelanjutan, kuat, dan berimbang. B20 secara konsisten menyesuaikan prioritasnya pada KTT G20. Prioritas tersebut antara lain rekomendasi kebijakan pada reformasi sistem keuangan, perdagangan investasi, infrastruktur, ketenagakerjaan, iklim dan energi baru terbarukan.

Dalam pembukaan Ready to eMove, **Staf Khusus Presiden, Diaz Hendropriyono** menyampaikan “Pola mobilitas saat ini tidak berkelanjutan sebab sektor otomotif merupakan salah satu penyumbang emisi terbesar. Sehubungan dengan hal ini, Presiden Joko Widodo memulai inisiatif untuk melakukan transformasi ke kendaraan listrik yang menghasilkan emisi lebih sedikit. Beliau menargetkan 2 juta kendaraan listrik mengaspal di jalan-jalan di Indonesia pada tahun 2025.”

Menteri Perhubungan Budi Karya Sumadi, turut mengutarakan dukungannya atas terselenggaranya Ready to eMove, “Kita tahu bahwa target yang kita inginkan, yaitu penurunan emisi 29% di 2030 dan emisi nol di 2060 itu tidak mudah. Tetapi melihat upaya yang dibentuk semua komunitas, mulai dari adanya Peraturan Presiden, Peraturan Menteri, Kepolisian, TNI, dan Swasta, ini menunjukkan bahwa kita bersama untuk mewujudkan misi yang luar biasa.”

Ketua MPR RI sekaligus Ketua Umum Ikatan Motor Indonesia (IMI) Bambang Soesatyo menambahkan, “Untuk motor listrik, tahun ini harus sudah selesai soal peraturan tentang motor listrik, sehingga produksi dalam negeri bisa menghasilkan motor listrik yang murah dan terjangkau, termasuk segala bentuk pembiayaannya.”

Iwan Suryaputra, Chief Executive Officer Volta mengatakan, “Partisipasi Volta pada acara Ready to eMove merupakan bentuk dan langkah konsisten kami untuk mendukung berbagai kebijakan dan target pemerintah tentang percepatan transisi ke kendaraan listrik. Seterusnya Volta juga berupaya memperkuat serta mengakselerasi infrastruktur teknologi kendaraan listrik untuk dapat memberikan dampak sosial yang nyata kepada masyarakat Indonesia.”

Martin Suharlle, Direktur Utama PT M Cash Integrasi menambahkan, “Sejalan dengan semangat penerapan energi terbarukan yang terus ditekankan pada G20 dan B20, MCAS Group melalui Volta berkomitmen memberikan dukungan penuh untuk mengembangkan ekosistem kendaraan listrik yang mumpuni dan lengkap di Indonesia. Kami yakin Volta yang dikembangkan dengan teknologi IoT dan dukungan infrastruktur digital yang masif milik Group, akan menjadi salah satu pioneer dalam pergerakan besar ke energi terbarukan.”

Tentang PT Volta Indonesia Semesta

PT Volta Indonesia Semesta menciptakan serta mengembangkan teknologi-teknologi untuk memajukan negeri, khususnya di bidang teknologi transportasi ramah lingkungan. Volta juga mengoptimalkan pemanfaatan sumber daya perusahaan untuk menghasilkan produk dan jasa yang bermutu tinggi. Selalu mengedepankan inovasi teknologi, Volta menghadirkan kendaraan listrik dengan fitur terdepan yang siap memberikan pengalaman berkendara terbaik yang ramah lingkungan.
